

EVENT MANAGEMENT SOLUTIONS

— BY RMS THE HOSPITALITY CLOUD

Making life easier for Event Organisers

From simple meetings to complex seminars and conferences the Events module takes the headaches out of organising meetings and conferences.

Incorporated within The Hospitality Cloud it provides seamless and complete event management capability - everything a professional conference organiser requires!

A COMPLETE SOLUTION

The easy to use event builder, task assignment and operational reporting functions allows you to manage internal staff and suppliers.

Purpose built financial reports provide a complete management solution to control all types of events.

SAVE TIME

Save time and effort using past event schedules

EASY EDITING

Additional tasks may be added and the event edited as required

FLEXIBLE

Flexible and applicable to a wide range of events

The order of events can be presented in a variety of formats

COST CONSOLIDATION

Consolidate and transfer costs to RMS guest reservation account

Minimise administration costs and maximise service

EVENT REPORTING

Profit and loss reports comparing actual performance to budget

Detailed operational reports with infinite detail to manage your event
